

DHRUV RAJ SINGH

Software Developer — Full Stack Developer

+91-7379100904 | dhruvr Singh2005@gmail.com | [linkedin.com/in/dhruvr Singh](https://www.linkedin.com/in/dhruvr Singh)

Profile

Software engineering undergraduate with a strong foundation in algorithms, data structures, and object-oriented programming, complemented by hands-on experience building scalable applications using Java, and JavaScript. Proven ability to solve complex technical problems through structured thinking, with practical exposure to full software development lifecycle via an industrial internship at Hindalco Industries. Eager to partner with business-aligned technology teams to deliver impactful solutions, and enthusiastic about developing analytical and quantitative skills within the financial services industry.

Technical Skills

Programming Languages: C, Java, JavaScript, Python, SQL

Web Technologies: HTML, CSS, React.js, Node.js, Express.js

Data & Analytics: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code

Core Concepts: OOP, DBMS, RESTful API Integration

Experience

Hindalco Industries Limited

May 2024 – June 2024

Summer Intern – Information Technology

- Developed a React-based industrial maintenance application used by **50+ workers** to manage **200+ maintenance tickets per month**.
- Applied debugging and problem-solving techniques to resolve frontend issues and improve reliability.
- Integrated frontend forms with RESTful APIs ensuring validation and error handling.
- Collaborated with team members following basic **software development lifecycle (SDLC)** practices.

Projects

CampusHive – Smart Campus Event Management System | MERN Stack

Feb 2026 – Mar 2026

- Owned end-to-end delivery of a customer-facing event management platform using React, Node.js/Express, and MongoDB — managing the full lifecycle from design to testing and ongoing support.
- Engineered automated workflow modules in Node.js for approval routing and notifications, reducing manual intervention and improving operational efficiency across the customer portfolio.
- Built analytics dashboards integrated with backend APIs to surface attendance, registration, and engagement data — enabling data-driven decision-making for stakeholders.
- Developed secure role-based access control (Admin, Organizer, Participant) using JWT, iterating on user flows through structured testing and stakeholder feedback cycles.

Industrial Maintenance Management System | React.js, JavaScript, REST APIs

May 2024 – July 2024

- Developed a centralized web system to manage machines, maintenance tickets, and safety incidents.
- Implemented role-based workflows for ticket creation and tracking.
- Applied structured problem-solving and algorithmic thinking while developing application features.

Certifications and Activities

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (Oracle University, 2026):** Certified in AI and cloud infrastructure foundations, with knowledge in scalable platform operations and machine learning concepts.
- **KIIT Fest – Event Organizer, School of Computer Engineering (2026):** Co-organized a technical event during KIIT Fest, handling participant management, event coordination, and smooth execution of the competition on behalf of the School of Computer Engineering.

Education

B.Tech. Information Technology

Expected: May 2027

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar

CGPA: 8.32 / 10

Class XII (CBSE)

2023

Nirmala Convent High School, Renukoot

70.5%

Class X (CBSE)

2021

Nirmala Convent High School, Renukoot

90.2%
